

SCHEDULE OF FEES

DIAGNOSTIC TESTS	LABORATORY FEES	DURATION OF TEST
I. PATHOLOGY		
A. Gross Pathology (Necropsy)		
1. Poultry – Up to 8 weeks old	50.00/head	3 working days (for every 12 carcasses)
2. Poultry – Over 2 months old	75.00/head	3 working days (for every 12 carcasses)
3. Swine – Up to 8 weeks old	100.00/head	3 working days (for every 1 carcass)
4. Swine – Over 2 months old	150.00/head	3 working days (for every 1 carcass)
5. Swine – Sow/Boar	200.00/head	3 working days (for every 1 carcass)
6. Goat	150.00/head	3 working days (for every 2 carcasses)
7. Cattle/Carabao/Horse – Up to 8 weeks old	200.00/head	3 working days (for every 1 carcass)
8. Cattle/Carabao/Horse – Over 2 months old	300.00/head	3 working days (for every 1 carcass)
9. Canine/Feline ^f	200.00/head	5 working days (Rabies+Necropsy) (for every 1 carcass)
B. Histopathology (Microscopic Examination)		
1. Tissue Processing (Reading not included)	50.00/slide	14 working days (for every 40 slides)
C. Clinical Pathology		
1. Differential Count (Automated) ^a	100.00/sample	2 working days (for every 50 samples)
II. VIROLOGY		
A. Viral Isolation and Identification^a		
1. Tissue Culture	450.00/sample	30 calendar days
2. Egg Inoculation	450.00/sample	30 calendar days
3. Viral Identification	450.00/sample	30 calendar days
B. Serology^a		
1. Agar Gel Immunodiffusion Test (AGID) ^b		
<i>Poultry:</i>		
a. Avian Influenza (AI) ^f	150.00/sample	3 working days
b. Infectious Bursal Disease (IBD)	150.00/sample	3 working days
c. Infectious Laryngotracheitis (ILT)	150.00/sample	3 working days
d. Marek's Disease (MD)	150.00/sample	3 working days
<i>Horse:</i>		
a. Equine Infectious Anemia (EIA) – Coggins' Test	250.00/sample	3 working days
2. Enzyme-Linked Immunosorbent Assay (ELISA) ^c		
<i>Cattle/Carabao/Swine/Goat/Sheep:</i>		
a. Foot and Mouth Disease (FMD)	1,500.00/ sample	4 working days
<i>Cattle/Carabao/Goat/Sheep:</i>		
a. Bluetongue (BT) ^f	300.00/sample	4 working days
<i>Cattle/Carabao:</i>		
a. Bovine Leukemia Virus (BLV) ^f	300.00/sample	4 working days
b. Lumpy Skin Disease ^f	300.00/sample	4 working days
<i>Goat/Sheep:</i>		
a. Small Ruminant Lentivirus (SRLV)	300.00/sample	4 working days
b. Peste des Petit Ruminant (PPR) ^f	300.00/sample	4 working days

E-mail Add: addr1@bai.gov.ph

DIAGNOSTIC TESTS	LABORATORY FEES	DURATION OF TEST
<i>Swine:</i>		
a. African Swine Fever (ASF) ^f	300.00/sample	4 working days
b. Aujeszky's Disease or Pseudorabies (PRV) gE	300.00/sample	4 working days
c. Classical Swine Fever (CSF) ^f	300.00/sample	4 working days
d. Japanese Encephalitis Virus (JEV) ^f	300.00/sample	4 working days
e. Porcine Circovirus 2 (PCV2) ^f	300.00/sample	4 working days
f. Porcine Epidemic Diarrhea (PED) ^f	300.00/sample	4 working days
g. Porcine Reproductive and Respiratory Syndrome (PRRS)	300.00/sample	4 working days
h. Swine Influenza (SI)	300.00/sample	4 working days
<i>Poultry:</i>		
a. Avian Influenza (AI)	300.00/sample	5 working days
<i>Horse:</i>		
a. African Horse Sickness (AHS) ^f	300.00/sample	4 working days
<i>Rabbit:</i>		
a. Rabbit Haemorrhagic Disease (RHD) ^f	300.00/sample	4 working days
3. Hemagglutination-Hemagglutination Inhibition (HA-HI) Test		
<i>Poultry:</i>		
a. Infectious Bronchitis (IB)	100.00/sample	3 working days
b. Newcastle Disease (ND)	75.00/sample	3 working days
c. Avian Influenza (AI)	100.00/subtype/ sample	5 working days
C. Rabies Examination		
1. Fluorescent Antibody Test (FAT)	200.00/sample	2 working days
III. BACTERIOLOGY		
A. Antibiotic Sensitivity Test	150.00/organism	3 working days
B. Bacterial Isolation and Identification^{d,e}		
1. General Bacterial Isolation and Identification	250.00/organism/ sample	8 working days
2. Salmonella Isolation and Identification	450.00/sample	5 working days
3. Honeybee Bacterial Isolation and Identification ^f	250.00/organism/sample	10 working days
C. Water Coliform Count^d	300.00/sample	5 working days
D. Fungal Isolation and Identification^e	250.00/sample	15 working days
E. Bacterial Count^d	500.00/sample	3 working days
F. Fungal Count^e	500.00/sample	12 working days
G. Serology^{a,e}		
1. Rapid Plate Test (RPT)		
<i>Cattle/Carabao/Swine/Goat/Sheep:</i>		
a. Brucella sp.	150.00/sample	2 working days
<i>Poultry:</i>		
a. Mycoplasma gallisepticum	150.00/sample	2 working days
b. Mycoplasma synoviae	150.00/sample	2 working days
c. Salmonella pullorum	150.00/sample	2 working days
2. Enzyme-Linked Immunosorbent Assay (ELISA) ^c		
a. Actinobacillus pleuropneumoniae ^f	300.00/sample	4 working days
b. Brucella sp.	300.00/sample	4 working days
c. Coxiella burnetii (Q Fever) ^f	300.00/sample	4 working days
d. Mycobacterium paratuberculosis ^f	300.00/sample	4 working days
e. Mycobacterium tuberculosis ^f	300.00/sample	4 working days
f. Mycoplasma gallisepticum ^f	300.00/sample	4 working days
g. Mycoplasma hyopneumoniae ^f	300.00/sample	4 working days
h. Mycoplasma synoviae ^f	300.00/sample	4 working days
i. Salmonella spp. ^f	300.00/sample	4 working days

DIAGNOSTIC TESTS	LABORATORY FEES	DURATION OF TEST
IV. PARASITOLOGY		
A. Blood Parasite Examination (BPE)^e		
1. Direct Smear	15.00/sample	3 working days (for every 20 samples)
2. Stained Smear	25.00/sample	3 working days (for every 10 samples)
3. Mice Inoculation Test (MIT)	60.00/sample	21 days (for every 10 samples)
4. Hematocrit Centrifugation Technique (HCT) ^f	75.00/sample	3 working days (for every 20 samples)
B. Fecal Examination^e		
1. Direct Smear ^f	20.00/sample	3 working days (for every 20 samples)
2. Flotation		
a. Test Tube Flotation Method	20.00/sample	3 working days (for every 20 samples)
b. McMaster Flotation Method	20.00/sample	3 working days (for every 20 samples)
3. Sedimentation	20.00/sample	3 working days (for every 20 samples)
4. Larval Culture	35.00/sample	21 days
C. Serology^a		
1. Card Agglutination Test for Trypanosomes (CATT)	90.00/sample	4 working days (for every 30 samples)
2. Enzyme-Linked Immunosorbent Assay (ELISA) ^{c,f}	300.00/sample	4 working days (for every 90 samples)
D. Identification of Parasite		
1. Tissue parasite	170.00/sample	14 working days (for every 1 sample)
2. Whole parasite	50.00/sample	14 working days (for every 1 sample)
E. Detection and Identification of Honey Bee Parasites/Pests^f		
1. Sugar Alcohol Shake Method	50.00/test/pest	3 days (for every test per pest)
2. Bottom Board Counting Method	50.00/test/pest	3 days (for every test per pest)
3. Smear Examination for Nosema sp.	100.00/1-30 samples	14 days (for every 60 samples)
4. Dissection for Tracheal mites (Acarapis woodi)	100.00/1-30 samples	14 days (for every 60 samples)
5. Small Hive Beetle (Aethina tumida)	50.00/sample	21 days
V. MOLECULAR		
A. Molecular Techniques		
1. Real-Time Polymerase Chain Reaction (PCR)	3,000.00/sample or test	5 working days
2. Conventional Polymerase Chain Reaction (PCR)	2,500.00/sample or test	5 working days

^aDepending upon the availability of reagents/kits

^bRequires 3 or 4 samples to run the test

^cTesting will only run if the number of samples is enough to fill an ELISA plate

^dSubmission of samples (for farm/animal consumption only) should be from Monday to Wednesday only

^eDuration of test depends on the number of samples/current cases

^fNew test not in Administrative Order No. 25, Series of 2003; for inclusion in the proposed amendment of Schedule of Fees

RAINELDA C. DELA PENA, DVM, MPA
 Chief, Veterinary Laboratory Division
